ABOUT US

Proudly serving those who serve America.

You stand guard for America. We stand behind you, building the systems that keep your mission ready. Hammerhead is honored to support every service member, veteran and public servant who protects our land, our liberties and our way of life — and proud to equip the bases, armories, VA facilities and agencies you depend on. We design, engineer, supply and install pallet racking, shelving and automated storage systems, along with mezzanines, modular offices, secure weapons storage and TA-50 storage lockers, safety systems and material handling equipment. One in-house team carries each project from site survey through permit and final inspection.

DIFFERENTIATORS

One accountable contractor
Design, engineering, permitting and installation under one award, with no hand-offs to subcontractors.

Turnkey facility fit-out
Shelving, racking, mezzanines, modular offices, lockers and dock equipment from one source.

Proven track record
Trusted by DoW, VA, USACE, USAF, USN, the National Guard and the IRS, plus Fortune 500 operators.

Set-aside eligible
WOSB, SDB and NHO-owned status helps agencies meet their small-business goals.
